Hi Kristine

Thanks for your email.

supports are going. He's been engaged with a support worker to assist him with his appointment and accessing the community.

He's also working with an OT to assist him for a wheelchair, a Physiotherapist to assist him with the therapy sessions on his right side as well as a Speech pathologist to recommend options for him regarding communication.

Can you just please confirm if his both wheelchairs are **rented** from you or does own the Manual wheelchair?

If you have any questions, please let me know.

Thanks

Kind Regards,
